

«Water Sector Reform in Kenya»

Trainings 24. until 28.8. || 07. until 11.12.2015

Welcome...

...to all participants of the training courses on the **importance and the basics of sanitation techniques** in Kenya. This platform is dedicated only for you to get into contact with each other, with the course administration at GIZ, with the face-to-face trainer and with the online moderators.

Breaking News

The first training will take place in Naivasha from Monday, 24.8 till Friday, 28.8.2015 By the time you read this, all participants and the trainers should be assembled at the place of the venue. All materials which are presented to you by the trainers are ready for download after the training.

You – together with the GIZ and the course administration – are supposed to develop **a training manual** during these first training days. The TM is based on your needs and will give you as multiplier a basic information on the keywords and the importance of a working sanitation system. Beside the fact that this training manual is the basis for the second training 28.9 till 2.10, the TM will also be part of the SafiSan platform and thus will be available for the public as well.

During the training, you will also be confronted with some basics of «Social Media». Mr. Biad will train with you once again the access to this platform and to the closed «Facebook» group (<https://www.facebook.com/groups/834812219966921/?ref=bookmarks>)

What can you do here?

As said in the above paragraph, this platform is the centre of all your activities related to the training courses. In order to prepare the training courses and the manual, we have to evaluate your existing knowledge and your wishes for the upcoming trainings (Training Needs Assessment). This is NOT a test of your knowledge, we only would like to tailor the content of the training courses to your needs.

You are supposed to perform the following actions **before** the first training course:

- Proceed to «Edit your personal data» (<index.php?id=3033>) and complete your professional profile. We are most interested in the company or institution you are working for and in your function there. Please also upload a photo of yours and do not forget to click the «Save» button following the particular entries :-)
- Read the basic material (<index.php?id=3039>) (mainly PDF documents) offered in «Download» (<index.php?id=3039>). This will allow your trainer Mr. Biad to start the presence courses at a certain level.
- Complete the Multiple Choice Test (MCT) (<index.php?id=3037>). The results gathered here will affect the content of the training manual offered to you and your fellows. Again, please be aware that we do NOT want to check your knowledge level, we will take the results only to create an appropriate manual!
- Please use this link to apply for membership at the closed group (<https://www.facebook.com/groups/834812219966921/?ref=bookmarks>) in Facebook. (If you are not a member to Facebook, open a new identity here (<https://www.facebook.com>)). Please use parts of your full name and a real photo, not a nickname. This will help us to identify you). The role of «Social Media» in an Awareness Raising Campaign will be part of the face-to-face trainings!

Certificates

Every successful participant of the training will receive a GIZ certification of attendance signed from the GIZ program administration and the trainer/moderator Mr. Biad of Margraf Publishers.

Facebook-Group

This is the link to the closed group on Facebook which will be used for further communication among the participants

Click here to apply to join the Facebook-Group (or proceed to the group if you are already a member) »»

(<https://www.facebook.com/groups/834812219966921/?ref=bookmarks>)

The SAFISAN Platform

You will find useful tools and documents about the water and sanitation situation in Kenya here. Also the final training manuals derived in the upcoming trainings described here (and you are a part of these) will be available for free there. Go to the SafiSan toolkit here »» (<http://waterfund.go.ke/safisan/>)

*[SafiSan is derived from two words: **Safi** – a swahili word meaning clean – and **Sanitation** – an English word meaning hygienic management of human excreta from human contact].*

Contact Information

Responsible for the Online Platform and your counterpoint for general requests on the project:

Dirk Hangstein, Germany

Presence trainer and moderator:

Mostafa Biad, Morocco

Responsible for the Training Manual:

Hans Hartung, Germany

Alexandra Pres, Germany

Responsible for Logistics:

Doreen Mbalo, GIZ Kenya
